

Unit Review & Re-Approval

* If a proposal does not proceed at any point, feedback on the reasons for the proposal not proceeding should be provided to the Owning School for consideration and potential rectification.

Where a unit review and/or re-approval cannot be completed before the approval expires, the relevant Head of School (or delegate) must apply for an extension of the current approval to the School Education Committee, with a timeline for completion of the review and/or re-approval. The extension request must outline the reasons why the review and/or re-approval has not been completed. School Education Committee can approve an extension up to 12 months OR suspend the unit until completion of the review and re-approval is granted.
