

Student Alcohol and Other Drug Policy

Section 1 - Overview

(1) UNE is committed to encouraging and assisting students to realise their full academic and personal potential within an environment that actively promotes their health, wellbeing and safety. These principals will be supported by:

- a. Encouraging students to recognise the adverse effects of alcohol and/or the use of illicit drugs and to modify their behaviour accordingly;
- b. Encouraging students to recognise the increased dangers to students of polydrug use where people combine drugs for a desired effect or combine them out of habit;
- c. Encouraging moderation and a responsible attitude to alcohol use. This policy aims to create an environment for students that are free of inducement and social pressure to drink to excess. It also encourages a responsible attitude to each other, that is 'looking out for each other' comparable to a non drinking driver being elected by a group;
- d. To provide adequate information about alcohol and other drugs and the consequences of their inappropriate use;
- e. To facilitate assistance to those individuals for whom alcohol or other drugs has become a problem;
- f. To protect the good reputation of the University and to prevent alcohol and other drug-related damage to property; and
- g. To meet legal and compliance responsibilities across all University-related activities, including ensuring that the principles of the NSW Liquor Act 2007 and NSW Registered Clubs Act 1976, are observed during all University-endorsed activities.

Section 2 - Scope

(2) All members of the University community share responsibility for protecting the academic and social environment for students by exemplifying high standards of professional and personal conduct. - a. All UNE Representatives and Students of the University, when on University premises or attending any UNE-sponsored activity, are responsible for complying with the Student Alcohol and Other Drug Policy;
- b. Heads of Residences are responsible for making reasonable efforts to ensure that students under their authority comply with the Student Alcohol and Other Drug Policy; and

The Licensing Court of NSW or equivalent will not grant licenses or permits applicable to University sites unless the applicant has obtained the prior approval of the University. All conditions of the license must be adhered to.
